Schematic Design, Design Development, Exhibit Text, Graphic Design & Production, Casework, Artifact Mounting, Interactives, Installation

At the St. Paul Saints' City of Baseball Museum, fun takes center stage. The team's quirky personality and fun-loving spirit were a driving force behind the exhibit design. Visitors can pose with life-size cutouts of their favorite Saints players, see one-of-a-kind team memorabilia, and even enter a superfan's living room. Throughout these experiences, visitors learn about the rise of this beloved local institution, cross-town rivalries with Minneapolis teams, and the role the Saints played in the larger history of baseball.

For fans eager to learn more about their favorite team, the City of Baseball Museum doesn't disappoint. Built in the Saints' new stadium, the exhibits feature open views to the field outside. These sightlines reinforce the connections between visitors and the game itself—and encourage fans to stop by the exhibits, knowing they won't miss the action on the field.
